S i r :

1. In response to the restriction requirement mailed September 11, 2006, Applicants elect group II (claims 35-37, 42-56) with traverse.

2. The Examiner has identified claims 38-41 and 57-65 as linking I/II, and hence we expect that they will also be examined.

3. By preliminary amendment filed on even date herewith, claim 32 (the sole claim of group I) has been amended to depend from group II claim 36, thereby placing claim 32 in group II.

4. In response to the species restriction, applicant elects collectin, with traverse. Traversal is based on allowability of a generic claim. The Examiner conceded that claims 35, 38-43 and 59-66 are generic. We believe that the remaining group II (or linking) claims read on the elected species.

Respectfully submitted,
